IntelliCorp Announces Alliance with iCIMS to Help Simplify and Improve Candidate Screening

BEACHWOOD, Ohio, November 5, 2018 — Intellicorp Records, Inc., a Verisk (Nasdaq:VRSK) business, announced today a new alliance with iCIMS, Inc., to help streamline and improve candidate screening and allow IntelliCorp customers to evaluate and onboard talent more quickly and efficiently. IntelliCorp is a provider of comprehensive background checks and employment screening solutions for businesses and nonprofit organizations. iCIMS is a leading provider of cloud-based talent acquisition solutions.

As part of the new alliance, IntelliCorp, which focuses on candidate-friendly background screening services, now offers a platform-to-platform integration into the iCIMS Talent Platform, a suite of talent acquisition tools that enables organizations to source, screen, and manage talent for their ever-changing business needs. The integration offers organizations a unified workflow of applicant background information from IntelliCorp's proprietary screening solutions into iCIMS, where employers remain in control of the entire hiring process—all within a secure cloud-based hub that extends the value of all human resources solutions used.

Today, organizations use dozens of applications to support the recruitment function, and generally a lack of integration across systems continues to be a top challenge for HR professionals. Through [UNIFI](#), iCIMS Platform-as-a-Service (PaaS) framework, organizations optimize their HR technology stack by centralizing tools within a dedicated talent platform that serves as an extension of their core human capital management (HCM) strategy. By integrating the iCIMS Talent Platform with other best-in-class providers like IntelliCorp, organizations open the door to powerful analytics that drive more intelligent business decisions.

"We're excited to pair our screening solutions with iCIMS to create a more streamlined and easy-to-use experience for both the employer and applicant," said Todd Carpenter, IntelliCorp president. "This can allow organizations to onboard quality talent more quickly and efficiently."

"Today, candidate screening requires not only the reassurance of data governance and compliance but a smooth experience for applicants with consumer-like expectations," explains Susan Vitale, chief

marketing officer of iCIMS. "iCIMS is happy to expand our partner ecosystem with a solution like IntelliCorp to provide our customers strong data transfer and a consistent experience through a trusted integration alongside all other tools used for talent acquisition within their iCIMS platform."

Intellcorp Records will also join the [iCIMS Marketplace](#), an online community featuring the leading talent acquisition partner ecosystem of more than 230 solutions, enabling organizations to shop for and engage with supporting technology providers that best fit their unique talent acquisition and management needs—all in one logical, easy-to-use interface.

About IntelliCorp

Intellcorp Records, Inc., is a provider of comprehensive background checks and employment screening solutions for businesses and nonprofit organizations. A Verisk (Nasdaq:VRSK) business, IntelliCorp is accredited through the National Association of Professional Background Screeners (NAPBS). Clients benefit from industry-leading data, easy-to-use services, personalized customer service, and training and compliance education. IntelliCorp's customer-driven solutions and flexible system architecture allow for simple integration into multiple platforms. A robust operational framework and infrastructure of guiding principles and industry best practices demonstrate IntelliCorp's steadfast commitment to compliance with federal and state requirements pertaining to background screening.
