

Drug Screening

Helping to make your workplace safer.

Alcohol and drug abuse is regarded to be among the most common health hazards in the workplace. For the many short and long term benefits of a drug-free workplace, more employers are implementing drug testing programs as a powerful risk management tool and cost-effective means to promote a positive and safe work environment.

At IntelliCorp, we can help protect your organization from the impact of drug and alcohol abuse. Our system provides you with a single interface for ordering drug testing and background screening services.

Features & Benefits

- One-stop shop through the IntelliCorp website, which includes the ability for you (or your candidate) to schedule the drug screen at the time of ordering.
- Available through our mobile applicant self-service portal solution.
- Real-time status updates in the Results Center so you'll know where your candidate is in the process.
- Email notifications for status changes.
- Digital signature capabilities for addendums and document storage for future retrieval.
- DOT electronic scheduling.

Our drug testing products and services include:

- Hair
- Saliva
- Urine
- DOT
- Random
- Electronic Scheduling
- Post-Accident Testing
- Onsite Testing

Add value to your background screening program with IntelliCorp's drug testing services!
