

In order to be able to request Motor Vehicle Records from the State of Utah, your organization will need to register on the Utah.gov website. Once registered, the approval process from the State of Utah can take up to five business days.

Here are key items of note about the new process:

- Customers will need to register their account at the designated Utah agency website, as provided below.
 - The state will require a vendor and sub-vendor code be included as part of the registration process.
 - Customers **must** complete this process prior to the currently unstated state deadline. Failure to register with the state prior to the deadline will result in the removal of customer's Utah MVR access.
- As of this time, there will be no changes made to the current Utah MVR ordering process.

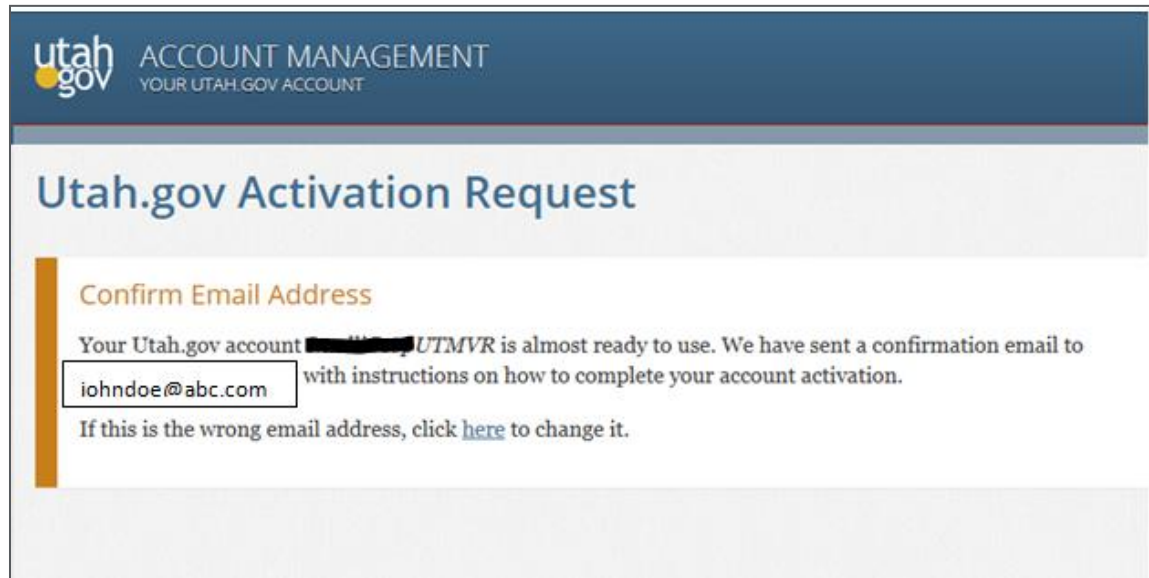

To assist you in the registration process, below are screen shots of what to expect in for each step:
